Balance Sheet continues to strengthen in line with medium-term strategy

Trading in the current financial year has started strongly as the Group continues to deliver on its four-year medium-term plan that was first announced in June 2021. At 31 August 2024, the unaudited value of the Group's Net Tangible Assets reached a record high standing in excess of £40m. Additionally, the Group achieved record monthly revenues during July 2024, and then again in August 2024, as it continues to benefit from the focus on own-book lending. Unaudited revenues during Q1 FY2025 were approximately 20% higher than the prior year equivalent (Q1 FY2024: £7.6m), providing significant confidence as to delivery of full year performance in line with market expectations. Fuller detail regarding all key metrics and performance during Q1 will be provided in the update being announced on 25 September.
